The team would like to introduce Radtech, who will be making the radiator, transmission cooler and breather tank for RV3.

They are a company that are based in Cannock, in the West Midlands, and I never knew they were there! I can honestly say they make the best radiators I have seen and they work too! A huge thanks to Keith and Darren for their support and we look forward to seeing the finished results

Click on the Radtec link in the Sponsors menu above to visit their website and have a look at what they can do..
