We are proud to announce a partnership between Vauxhall Motors and the Redvictor1 Racing Team to support the MSA Pro Modified campaign with the new Redvictor 3 Street Legal Pro modified Car. The team will be running under the VXR banner to promote the flagship Vauxhall performance range with, what will be again, the fastest road going Vauxhall on Planet Earth!

Team Principal Andy Frost said " We are very happy and proud to announce a partnership with this great company. Over the years we have worked hard to promote the team, along with the Vauxhall name, to a worldwide audience, and feel this recognition is a fantastic gesture and reward for that effort. We are looking forward to working with Vauxhall in promoting the VXR brand as synonymous with superlative high performance vehicles. Andy and the team would like to extend their gratitude to Vauxhall for their faith and support in this venture.

Stuart Harris of Vauxhall said "We watched with admiration at what Andy was able to achieve with the original Red Victor and when the opportunity came to help in the new project we leapt at the chance"

The new car is on schedule to be completed early next year and is currently at the rolling chassis stage at the Webster Race Engineering workshop.
