Evening folks,

Just thought we'd give you a round up of where you can follow the build of Redvictor 3.

There are currently two build threads running, one on the Rods N Sods forum [here](#) , the other over on the Pistonheads forum [here](#)

You can also join us and see things progressing on the [RedVictor1Racing facebook group](#) , and if you are using every angle of social networking, we're even on Twitter [@TheRedVictor](#)

Please feel free to while away a good few hours looking at the progress we've made so far on either of the build threads, and hop on board with us from a social networking perspective on Facebook and twitter..

We'll continue to do our best to keep you updated with progress through all of these different routes.

Cheers,

slinky
