

RED VICTOR 3. Europe's fastest street legal car.

Written by Frosty

Friday, 16 September 2011 07:15 -

Just recently there has been a few newspaper articles proclaiming Red Victor 3 as the "Worlds fastest street legal car". This is incorrect at the present time. It WILL be the fastest next year, as everyone who has followed our project knows, but it isn't quite there yet.

The news agency that wrote the article was asked not to present it to any media, but they ignored my request and published it anyway.

Although the publicity is nice, i'm not happy that there are factual inaccuracies regarding the car, and i am trying to get the online articles changed to Europe's fastest. Obviously the printed ones can never be changed.

The team apologises for any confusion and appreciates you visiting our website.
