---

Again sorry for the lack of updates, it's been hectic over the last few weeks. As you will have read on Fatty's site we are doing a little match racing at the UK Modified nats at Shakey this weekend. The F\*\*D v Chevy battle recommences between us after Fatty's premature exit from the Excitement nats due to engine woes. Both of us are looking forward to a "tear up" for the 4 runs that are scheduled over the weekend! I have done some changes in the Converter and suspension department that I'm hoping will make a big difference to the performance (good I hope!) of the car. We'll see at the weekend. On a separate note thanx to everybody (almost) for their contributions to the message board, keep em coming.... If you're there over the weekend come over and say hello, if not I'll see you all in 3 weeks at the next CCSE round. Lets hope Fatty and I get a damage free weekends racing!

Till next time
