We thank Injector Dynamics and Turbowerx for their renewed support for the team in 2014!

We've run the ID 2000's and Turbowerx Exa pump for 3 seasons now with huge success. We recommend anyone who requires either the best injectors or turbo scavenge pump in the world to contact these guys. There is no comparison in quality and performance!

We are proud to be associated with both companies, and we look forward to working with them again in 2014!
