---

...and we got him to the church on time.....

We were asked earlier in the year by Paul Jackson if we could take his friend Leon to his wedding.I said &quot;why not&quot;,after all it is a street car,and if he wanted to get there on time then having the fastest street car as your limo would be the best bet!

{gallery}RV1/wedding{/gallery}

All went well and we got Leon there to marry his bride Jo,who to be fair was all for Leon's trip.... All the best to the happy couple,although looking back at their wedding photos in 10 years will they want a red car as the centre piece of their happy day...lol
