Last run of the year for the old girl.....

Having set the fastest time of the year at a RWYB(7.74 @ 187mph) we went along to Santa Pod to be presented with the Castrol Challenge trophy for the second year running. I'd like to thank Castrol for putting their money into the RWYB scene because most people who come into drag racing have started at the RWYB level. Castrol have also supported our team this year and we've formed a very successful partnership. Hopefully this will carry on into the 2008 season. As for the on track action we got 3 runs in on a cold track. Best was a 8.07 with Castrol's marketing director Paul Miller in the car which i was pleased about as the car weighed in at 3560lbs!! To say he enjoyed the ride was an understatement...!

So it's over for another year. A year which saw the team set some more records and got some more TV exposure. 2008 will see the team going on to bigger and better things as we start to turn the power up on the car, and try to set more records...

A huge thanks go to all the teams sponsors, friends and supporters, with the biggest thanks to my family and crew who have been there through all the ups and downs of the year.

See you all next year.....ANDY.
