---

As some of you have read on Eurodragster the team is appearing at the Autosport show at the NEC arena in Birmingham next weekend. We'll be doing all 13 shows in the live action arena in front of a big crowd. Hopefully this will put drag racing and Santa Pod into the mainstream spotlight. It also allows people who have seen the car on video to see it live, although we'll only be doing burnouts for obvious reasons.....

Wil(Slinky) is coming along with a photographer to get some action shots, which we'll post up as soon as we get to a computer. Hopefully any of you that make it to the show will pop over and say hello...

On another note we'll have some details of our 2008 mini world tour shortly. The KOE in Belgium and the WSR2 in Canada ARE confirmed, Hot Rod magazine's Dragweek isn't as of yet, but we're working on that as I write this.... You'll all know when I do..

ANDY.
